

Harlequin Cleaning & Maintenance

To help prevent injuries and prolong the life of your vinyl floor, use of the following products is recommended. Additional cleaning and maintenance instructions are available on our website or from your Flooring Specialist. Available to order online at harlequinfloors.com

HARLEQUIN CLEANERS

Harlequin recommends cleaning your vinyl floor with a neutral pH cleaning solution. We offer two options of neutral pH cleaners that are tough enough to remove soil, yet gentle enough for vinyl.

Harlequin Daily Cleaner

A low toxicity, biodegradable floor cleaner specially formulated for everyday use on vinyl performance floors. A one-gallon container should provide coverage for approximately 5400 ft² (600 yd²) of vinyl flooring when diluted.

Sold in gallon size or by the case (4 gallons).

Harlequin Heavy Duty Cleaner

An environmentally safe, low-odor stripper ideal for use on highly trafficked vinyl performance floors. A one-gallon container should provide coverage for approximately 5400 ft² (600 yd²) of vinyl flooring when diluted.

Sold in gallon size or by the case (4 gallons).

HARLEQUIN CONFIDANCE® - 'LIQUID ROSIN'

'Liquid rosin', which provides surface traction to any hard surface: vinyl, wood or tile.

Harlequin Confidence® - 'Liquid Rosin'

Looking for more grip on your floors? Harlequin Confidence is a specially formulated 'liquid rosin', which provides surface traction to any hard surface: wood, tile, linoleum and most importantly vinyl. Although Harlequin's performance floors have a slip resistant surface, many studios and stages have wood or tile surfaces, which require more slip-resistance. Harlequin Confidence is sold as a concentrate; the dilution rate can be as little as 20:1 or as much as 40:1.

Available in gallon size only.

Caring for Your Harlequin Floor

Harlequin Vinyl Performance Surfaces

(Does not apply to Harlequin Hi-Shine™)

Daily Maintenance using Harlequin Daily Cleaner

1. Sweep or vacuum the entire area to remove all loose dirt, dust and other foreign matter.
2. Mop the floor with a solution of lukewarm water and **Harlequin Daily Cleaner** (4 ounces of cleaner per gallon of water)
3. Rinse the floor thoroughly with lukewarm water and wet-vac the entire surface to remove all excess water.
4. Allow the floor to dry completely.

For Heavy Use – Bi-Monthly Maintenance

1. Vacuum the entire floor surface with a heavy-duty commercial vacuum to remove all loose dirt, dust and other foreign matter.
2. Mix a solution of lukewarm water and **Harlequin Heavy Duty Cleaner** (2 ounces of cleaner per gallon of water)
3. Scrub the surface with an automatic scrubbing machine such the **Harlequin Micro-Mini Scrubber** (150-350 rpm).
4. Rinse floor thoroughly with lukewarm water and wet-vac the entire surface to remove all excess water.
5. Allow the floor to dry completely.

Remember...

- Dust, dirt and spills should always be removed promptly.
- Stubborn scuff marks can be removed with Harlequin Heavy Duty Cleaner.
- Do not apply any type of floor sealer, finish, or wax.
- Do not sweep or mop the floor with oil treated mops or brooms.
- Do not scrub the floor with hard polyester or nylon pads, steel wool, wire brushes, or abrasive floor cleaners.
- Avoid outdoor shoes on your Harlequin floor. If they must be worn, ensure they are wiped before stepping on the floor.

Proper maintenance will
help extend the life of your
Harlequin floor.
