Permanent or Portable?

- A permanent vinyl floor is glued down with adhesive and cannot be removed without risking damage to the floor.
- A semi-permanent (portable) vinyl floor is loose-laid using double-sided tape and then welded at the seams. The seams can later be cut and the floor taken up.

Permanent or Portable?

- A loose-laid (portable) vinyl floor is rolled out and the seams are either covered with tape or temporarily secured to the sub-floor on the underside with double-sided tape.

Harlequin Allegro® was developed to protect against hard sub-flows and is a popular choice as a semi-floating flooring option. It's the ideal roll-out dance floor available worldwide and provides great protection for dancers due to its point-elasticity and slip-resistant dance surface.

Harlequin Allegro® is ideal for contemporary, modern, hip hop, jazz and street dance, as well as ambrosia and zumba, as it can help to reduce performer fatigue and impact injuries.

Harlequin Allegro® is a substantial heavy-duty floor. It's specified for permanent installation within dance institutions, dance studios, schools and gymnasiaums, although it can also be utilized as a toss-up option.

Harlequin Cascade® still delights generations of professional dancers, artistic directors and technical and stage managers as the ultimate heavy-duty dance floor. The silky smooth embossed surface that's often described as giving warmth to a performance, also provides deceptively good grip, as well as a high-quality base for lighting designers.

Harlequin Cascade® is ideal for ballet, contemporary, modern and theatrical use, as well as ambrosia, zumba, hip hop, jazz, street, salsa, percussive including Irish and tap, multi-purpose use, concerts and for operatic performances.

Harlequin Cascade® is specified for toss-up or permanent installation within dance institutions, dance studios, schools and theaters and is an excellent choice as the vinyl dance surface in conjunction with a Harlequin sprung floor.

Harlequin Reversible® is the original studio-sided dance and stage floor. It's a lightweight calendered vinyl that rolls out quickly, lays flat and stays flat. It's hard-wearing and slip-resistant on both sides, thus providing two floors in one!

Harlequin Reversible® is suitable for ballet, contemporary, percussive dance including Irish and tap, hip-hop, jazz, street, zumba, concerts, displays, exhibitions, television, theaters and for operatic performances.

Harlequin Reversible® is our most versatile loose-lay vinyl and is extremely popular among our extensive clientele. It's simply laid on any hard, smooth surface and is particularly suited to touring due to ease of handling and portability.

Harlequin Hi-Shine® is the ideal floor for television, concerts, display and exhibitions, as well as for use within theaters and for operatic productions. It rolls out easily and provides a breathtaking glossy finish.

Harlequin Hi-Shine® acts faster to any occasion. It's specified for toss-up installation and its special high-gloss surface is superior to urethane for scratch-resistance, providing a shiny, reflective surface.

Harlequin Hi-Shine® is a striking choice for opera, television sets, high-profile entertainment, fashion shows, product launches, parties, exhibitions, window displays, artistic use, etc. It's popular with a wide range of production companies and utilized on major TV shows and movies!

Harlequin Hi-Shine® is specified for permanent installation within dance institutions, dance studios, schools and for operatic performances.

Harlequin Hi-Shine® is a substantial heavy-duty floor. It's specified for permanent installation within dance institutions, dance studios, schools and for operatic performances.

Harlequin Hi-Shine® is a hard-wearing, durable performance floor that's intended for permanent installation into aesthetics, when the joints are heat welded to form a continuous performance surface.

Harlequin Hi-Shine® is a hard-wearing, durable performance floor that's intended for permanent installation into aesthetics, when the joints are heat welded to form a continuous performance surface.

Harlequin Fiesta® was developed because of the need for a floor which looked exactly like wood, but without all the associated problems of cleaning and maintenance. The floor’s skid strip effect performance surface provides the ideal solution.

Harlequin Fiesta® is specified for permanent installation, where the floors are welded to provide a continuous surface. It can be laid on any hard, smooth sub-floor and is an excellent choice as the vinyl performance surface in conjunction with a Harlequin sprung floor.

Harlequin Studio B® is designed for extra strength, with a firm cushioned foam backing. Studio B protects against hard sub-flows, but is still light enough to be portable for touring. Available in two colors, Studio B also helps to reduce noise while offering a special embossed surface, which allows ballet and modern dancers freedom of movement.

Harlequin Studio B® is a specially designed foam covering suitable for dance studio and stage use, but lightweight, making it suitable for touring as well as permanent installation.

Harlequin Studio B® offers just the right surface for ballet, modern, and other ballet-inspired dancers, and gives them the added confidence for demanding choreography and movement.
