"For three quarters of a century, *American Ballet Theatre* has been recognized as one of the great dance companies in the world, showcasing many of the finest dancers and choreographers of the 20th and 21st centuries. As America's National Ballet Company®, ABT's repertoire is unsurpassed and our roster includes many of the greatest artists in ballet today.

Flooring is a major consideration as ABT continues its commitment to performing works that both honor our heritage and celebrate the innovative future of the art form. Whether in rehearsal or in performance, Harlequin meets the standard of excellence that ABT and its artists demand, which is why we look to **Harlequin Floors** as our official flooring provider."
