

Activity with Vinyl Surface

Activity with Hardwood Surface

Harlequin Activity is a permanently installed sprung floor system, based on the well-established 'triple-sandwich' construction originated by Harlequin over 30 years ago. It's a fully floating system with no fixings to the sub-floor and can be laid on any reasonably smooth and flat surface without prior preparation.

Harlequin Activity is shock-damped to avoid a 'trampoline' effect and provides area and point elasticity to offer identical characteristics across the whole floor. An 'industry standard' choice, when correctly reinforced, it can withstand heavy loading including retractable seating.

Harlequin Activity is only available for installation by our Contracts Division. Activity can be installed with a Harlequin vinyl performance surface for all types of dance. A hardwood surface is available for specifiers who need a surface for multi-purpose use, including traffic by the general public, full stage entertainment, ballroom dance, or when required to match existing décor.

Specification Guide

Permanent or Portable	Permanent
Finish	Harlequin Vinyl Performance or Approved Hardwood Surface
Weight	37-40 lbs/yd ² (vinyl surface) 47-50 lbs/yd ² (hardwood surface)
