Harlequin Flexity™

Harlequin Flexity is a cost-effective sprung floor panel system, designed for permanent or semi-permanent installation. Panels are laid in a brickwork fashion onto the sub-floor, so that cross joints do not coincide. The panels join together by a special tongue and groove, which are glued together for permanent installation or fixed using woodscrews at predetermined points along the tongue and groove for a semi-permanent solution.

Harlequin Flexity can be installed by anyone with carpentry skills and full instructions are provided. It's a cost-effective choice, helping to reduce the injury risks associated with dancing or performing on a hard, unsprung floor.

Harlequin Flexity is finished by choosing an appropriate Harlequin vinyl or engineered hardwood* performance floor surface.

**Special order*

Specification Guide

Permanent or Portable	Permanent or Semi-permanent
Floor panel size	44" x 88"
Dance surface size	42 ⁷ / ₈ " x 87 ¹ / ₈ "
