Harlequin Hi-Shine™

Harlequin Hi-Shine is a scuff resistant, high-gloss flooring that rolls out easily and provides a reflective finish, effective for capturing stunning photos. Photographers and event planners are discovering what an impact a high gloss floor can have in their work.

Harlequin Hi-Shine specified for loose-lay installation and is reusable. Its special high-gloss surface is superior to urethane for scratch-resistance, providing a shiny, reflective surface.

Harlequin Double-Sided Tape is recommended to secure Harlequin Hi-Shine to a sub-floor. The low-tack/high-tack tape allows for easy removal without damaging the floor surface.

Photographers and event planners are discovering what an impact Harlequin Hi-Shine has...

"I've been a long-time fan of Harlequin Hi-Shine flooring. I have both Hi-Shine Black and White and they are often requested by my dancers. The reflections they provide look like water in my photography – providing a really cool range of creative possibilities!"
