

Harlequin Marine™

Harlequin Marine is extensively installed on cruise liners and conforms to marine standards and fire ratings. It's specified for permanent installation and is suitable for fitting within confined spaces on marine vessels and for scenery docks on cruise ships.

Harlequin Marine is also suitable for multi-purpose use, percussive dance including Irish and tap, concerts, television, theater and operatic performances.

Harlequin Marine is a hard-wearing, homogeneous PVC dance floor. It's fire resistant, with a slightly marbled surface to resist scuffing and hide marks. It can be laid on any hard, smooth sub-floor and is an excellent choice as the vinyl performance surface in conjunction with a Harlequin sprung floor.
