"Harlequin Floors are the best..."

"New York Theatre Ballet and Ballet School NY recently moved from our home of 30 years. We had **Harlequin Floors** throughout the three decades and there was no question we would install the same flooring in our new space! Harlequin Floors are the best and I would never have anything less for our students and company members.

The expert advice I received from Harlequin's flooring specialists helped us select the ideal floor for our new space, a **Harlequin Liberty®** sprung floor with a **Harlequin Reversible™** vinyl surface. Our diverse repertory—from classical ballets to Merce Cunningham to Antony Tudor to Agnes de Mille's Broadway dances—requires a specialized floor like a Harlequin, which allows dancers to easily transition from one style to the next. We miss our old space, but Harlequin Floors helped us to look forward to our new location. Thank you to everyone at Harlequin from the bottom of our hearts!"
