

Harlequin Marine™

Harlequin Marine meets rigorous marine standards and fire ratings, making it a popular choice for cruise liners. It's designed for permanent installation and fits well in tight spaces on marine vessels and in scenery docks on cruise ships.

Utilization: Harlequin Marine is versatile and fits various purposes, including percussive dance (Irish and tap), concerts, TV, theater, and opera performances.

Installation: As a durable PVC dance floor, Harlequin Marine is fire-resistant and features a marbled surface to resist scuffs and marks. It's suitable for placement on a smooth, hard subfloor and pairs excellently with a Harlequin sprung floor.

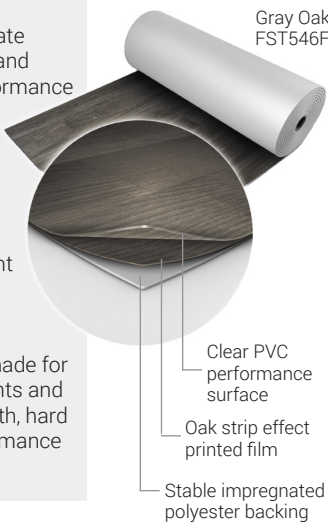

PERMANENT 2m

Harlequin Fiesta™

Harlequin Fiesta was created to replicate the look of wood without the cleaning and maintenance issues. Its oak-strip performance surface offers the perfect solution.

Utilization: Harlequin Fiesta suits ballroom, salsa, Irish and tap dance, multipurpose spaces, hip-hop, jazz, street, aerobics, Zumba, theaters, and operatic performances. It's a convenient choice for social floors that endure ballroom and tap shoes.

Installation: Harlequin Fiesta can be made for permanent installation with welded joints and portable loose-lay. It is suitable for smooth, hard subfloors, and an excellent vinyl performance surface for Harlequin sprung floors.

PERMANENT PORTABLE 2m

Permanent or Portable?

- Permanent vinyl floors are glued down with adhesive and cannot be removed without risking damage to the floor.
- Portable vinyl floors may be installed as semi-permanent or loose-lay. Semi-permanent is laid using double-sided tape and then welded at the seams, which can later be cut and the floor taken up. Loose-lay is rolled out and the seams covered with tape, or temporarily secured to the sub-floor on the underside with double-sided tape.

Harlequin Allegro™

Harlequin Allegro offers top-notch protection on hard sub-floors, serving as a favored semi-sprung flooring globally. It's the thickest roll-out dance floor globally, delivering excellent dancer safety with its point-elasticity and slip-resistant surface.

Utilization: Harlequin Allegro suits contemporary, modern, hip hop, jazz, street dance, aerobics, and Zumba, reducing performer fatigue and impact injuries.

Installation: Harlequin Allegro is a robust, heavy-duty floor designed for permanent installation in dance institutions, studios, schools, and gyms, and it's versatile enough for loose-lay use as well.

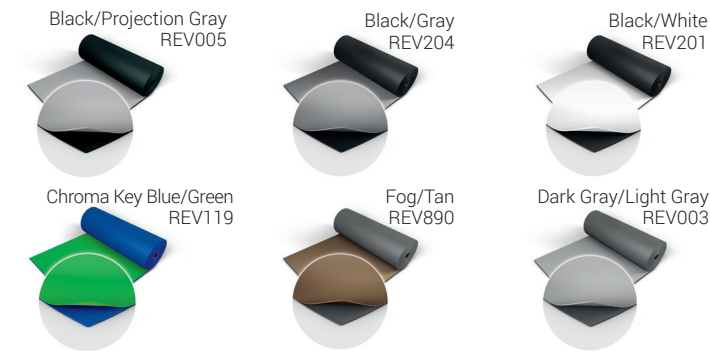

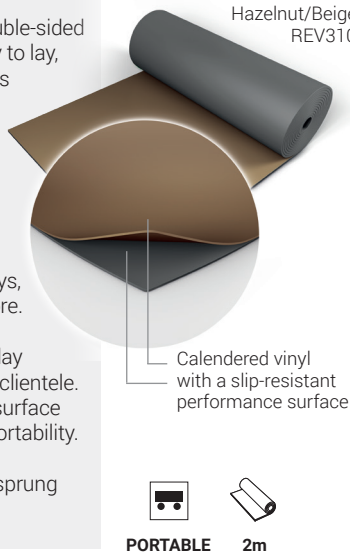

Harlequin Reversible™

Harlequin Reversible is the original double-sided dance and stage floor, lightweight, easy to lay, hard-wearing, and slip-resistant. It offers two different colors on each side, effectively providing two floors in one!

Utilization: Harlequin Reversible is versatile and ideal for ballet, contemporary, Irish, and tap dance, multipurpose settings, hip-hop, jazz, street dance, aerobics, concerts, displays, exhibitions, television, theaters, and more.

Installation: Our highly versatile loose-lay floor, is a favorite among our extensive clientele. It can be easily placed on any smooth surface and is ideal for touring because of its portability. It's also an excellent option as the vinyl performance surface with a Harlequin sprung floor.

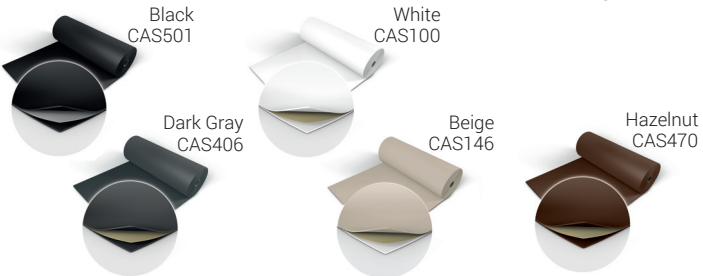

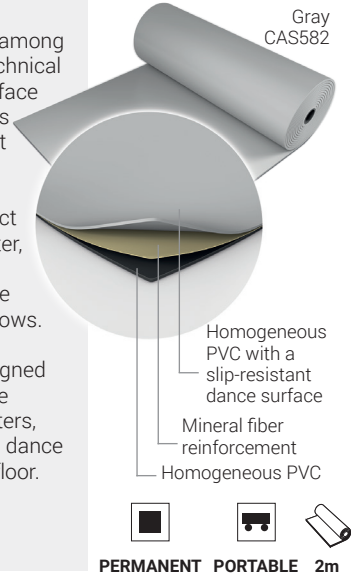

Harlequin Cascade™

Harlequin Cascade remains a favorite among professional dancers, directors, and technical teams for its durable, silky-smooth surface that enhances performances and offers great grip. It also serves as an excellent foundation for lighting designers.

Utilization: Harlequin Cascade is perfect for ballet, contemporary, modern, theater, aerobics, Zumba, hip-hop, jazz, street, salsa, Irish and tap dance, multipurpose applications, concerts, and operatic shows.

Installation: Harlequin Cascade is designed for loose-lay or permanent use in dance institutions, studios, schools, and theaters, making it an excellent choice as a vinyl dance surface alongside a Harlequin sprung floor.

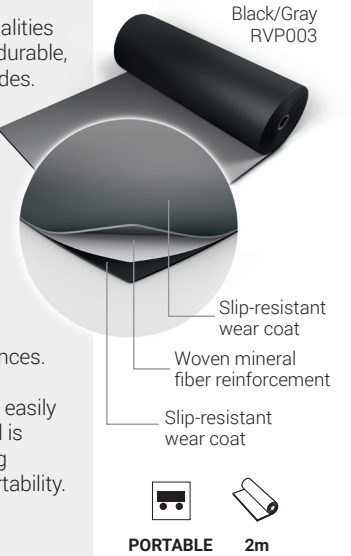

Harlequin Reversible Pro™

Harlequin Reversible Pro mirrors the qualities of our popular Harlequin Reversible: it's durable, lightweight, and slip-resistant on both sides. What sets it apart is a reinforced mineral fiber interply layer, enhancing tear strength and dimensional stability for quick, flat roll-out.

Utilization: Harlequin Reversible Pro suits ballet, modern, contemporary, Irish and tap dance, multipurpose applications, hip-hop, jazz, aerobics, Zumba, concerts, displays, exhibitions, television, theaters, and opera performances.

Installation: Harlequin Reversible Pro is easily placed on any smooth, hard surface and is favored by stage technicians and touring companies for its handling ease and portability.

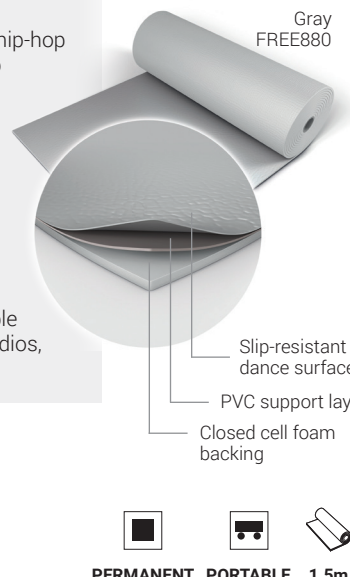

Harlequin FreeStyle™

Harlequin FreeStyle was created for hip-hop and street dancers, offering lower slip resistance for freedom of movement while maintaining safety.

Utilization: Harlequin FreeStyle is perfect for hip-hop, jazz, street dance, contemporary, modern dance, aerobics, and Zumba.

Installation: Harlequin FreeStyle works for both permanent and portable installations in dance institutions, studios, schools, colleges, and gyms.

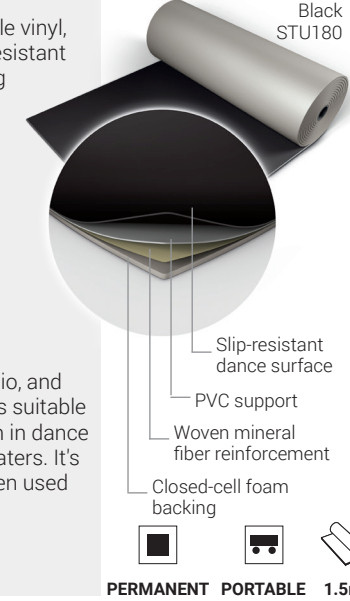

Harlequin Studio™

Harlequin Studio is made from durable vinyl, caters to dancers' needs with a slip-resistant surface that boosts confidence during demanding choreography and movement.

Utilization: Harlequin Studio's firm yet lightweight foam backing offers protection against hard sub-floors, making it a top pick for touring. It's suitable for aerobics, Zumba, hip-hop, jazz, street, ballet, contemporary, and modern dance.

Installation: Designed for dance, studio, and stage applications, Harlequin Studio is suitable for loose-lay or permanent installation in dance institutions, studios, schools, and theaters. It's also a superb vinyl dance surface when used with a Harlequin sprung floor.

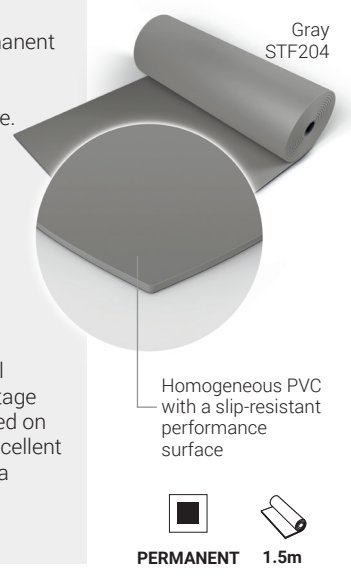

Harlequin Standfast™

Harlequin Standfast is a durable, permanent performance floor meant for adhesive installation, with joints heat-welded to create a seamless performance surface.

Utilization: Harlequin Standfast suits ballet, contemporary, modern, Irish, and tap dance, multipurpose settings, hip-hop, jazz, street dance, aerobics, Zumba, television, theater, and opera performances.

Installation: With a slip-resistant surface, Harlequin Standfast is an ideal permanent multi-purpose dance and stage floor for heavy-duty use. It can be placed on any smooth, hard subfloor and is an excellent vinyl performance surface to pair with a Harlequin sprung floor.

Harlequin Studio B®

Harlequin Studio B is designed for extra strength and features a firm cushioned foam backing that provides protection against hard sub-floors. It's lightweight for touring and comes in two colors, and boasts a special embossed surface that allows ballet and modern dancers freedom of movement.

Utilization: Harlequin Studio B provides the ideal surface for ballet, modern, and barefoot dancers, boosting their confidence during challenging choreography and movement.

Installation: Harlequin Studio B is a durable floor covering for dance studios and stages, offering both touring and permanent installation options due to its lightweight design.
